

# Information for ZEISS suppliers

## 1) Options for invoice dispatch

ZEISS accepts the following forms of invoice delivery:

- PDF file send by electronic means;
- Structured electronic invoices (e-invoices) send by electronic means in countries where it is a legal obligation;
- In paper form by mail.

ZEISS in the interest of sustainability and process speed prefers the invoices delivered electronically.

## 2) PDF invoice dispatch by email

ZEISS offers you as a supplier the possibility to send your invoices to ZEISS by email in the form.

Your benefits:

- You save costs for paper, print and postage;
- The processing time of your invoices is considerably reduced;
- The process becomes faster and less prone to error;
- Communication with regard to queries can be performed faster and more effectively.

This currently applies (January 2025) for invoicing to the following ZEISS companies:

Country	Name	Address	City
Austria	Carl Zeiss GmbH	Luxenburger Str. 2	AT-1100 Wien

Please note the following guidelines for the PDF invoice dispatch by email:

- Our email address for receiving PDF invoices is [invoice@zeiss.com](mailto:invoice@zeiss.com);
- The invoice mailbox is processed automatically and should be used exclusively for mailing invoices;
- Reminders, account statements or other communication are not to be sent to this address, but via the familiar communication channels of the respective ZEISS company;
- The invoice in PDF format or structured e-invoices replace the postal invoice in paper form - under no circumstances should the same invoice be sent by post;
- Only those invoices will be processed that comply with the following conditions:
  - The email with attachments shall not exceed a total size of 20 MB;
  - The invoice has to be sent as email attachment in PDF (or PDF/A) format, whereby multiple PDF invoice documents may be sent as single attachments in one email;
  - An invoice with an attachment as separate PDF document (e.g. a performance record) may not be sent with other invoices in one email so that the attachment can be allocated unequivocally;
  - Only one attachment is permitted per invoice and has to be indicated as attachment or similar;
  - The PDF or e-invoice must not be (password) protected or encrypted;
  - The PDF invoice document may not be a scanned invoice document, but must have been generated directly;
  - All billing-relevant information in the PDF invoice document have to be readable as text - please use clear, machine-readable fonts and contrasting colors;
  - The order number and order item should be clearly recognizable listed and labeled as such;
  - The PDF invoice document must not contain form fields or similar.

The detailed regulations regarding the addressing of invoices (especially with regard to invoice and service recipient), can be found in the ZEISS order or in the table containing all valid address combinations in the ANNEX at the end of this information.

### 3) Delivery of structured e-invoices (only valid for B2B transactions within Germany)

Starting 01.01.2025 Germany located companies need to be able to process structured e-invoices issued for B2B transactions. Such invoices should be delivered to ZEISS using the following address [electronicinvoice@zeiss.com](mailto:electronicinvoice@zeiss.com).

Please note the following guidelines for delivery of e-invoices:

- ZEISS accepts the e-invoices in formats ZUGFeRD (from version 2.0.1) or XRechnung (in the CII or UBL syntax).
- If the issued invoice should contain supporting PDF attachments, they need to be embedded directly in the XML file;
- The VAT identification number of the invoice recipient, i.e. the respective ZEISS company, should always be provided to ensure routing to the corresponding ERP system.

In addition, the invoices can also be sent in the BIS UBL 3.0 format via the Peppol network. The respective recipient identification numbers is the VAT ID number of the particular entity. They can be found in the ANNEX at the end of this information.

### 4) Invoice dispatch by post in paper form

Invoices by post must be sent exclusively to the address specified in the order.

### 5) General requirements for invoices

ZEISS only accepts invoices that comply with the legal and country-specific requirements.

In order to avoid delays in payment, it is also important that invoices contain the following mandatory information and that these correspond with the associated order:

- Addressed to the relevant ZEISS company with full company name and address;
- Full (company)name and address of the supplier;
- The word "invoice" (or in case of a credit note the word "credit note")
- Invoice number and invoice date;
- Invoice value with currency;
- Description of the goods and services delivered;
- ZEISS order number and order item;
- Name and contact details of the contact person at ZEISS;
- The unique reference number or information specified by the ZEISS contact person (if applicable);
- Highlighting of advance payments and/or final invoices; these should contain a reference to payments already made.

Invoices that fail to comply with the stipulated requirements shall be returned to the supplier for re-issuance, whereby this may lead to delays in payment of invoices.

For invoices whose gross amount does not exceed 250 €, the following details (in derogation from the aforementioned requirements) are sufficient:

- Name and address of the delivering and performing entrepreneur

- Amount and normal trade description of the items supplied or type and scope of service
- Remuneration and the tax amount for the delivery or other services in one amount - a disclosure of the tax amount does not have to be carried out separately.
- Tax rate applicable or reference to tax exemption
- Date of issue of the invoice

## 6) Information for timely payment

In order to enable error-free processing and timely payment of invoices all suppliers are asked to note - in addition to the details on the ZEISS order - the following guidelines:

- Please bill only one order per invoice;
- The invoice has to correspond with the order structure - if the order is structured in various positions, the invoice has to be structured in the same way;
- Prices, units and currencies must correspond with the specifications in the order;
- The corresponding order item has to refer to the invoice line item;
- The payment deadline of the invoice has to correspond with the due date of the order;
- The mention of the consignment or delivery note numbers helps to improve the processes;
- Clear disclosure of the valid bank account on the invoice.

Each missing information or deviation from the guidelines described above can lead to longer processing times or to a return of the invoice with a corresponding deferred payment.

## 7) Exception: Invoices without order reference

In principle, only invoices with reference to an order are accepted.

In exceptional cases that have been agreed with the respective ZEISS company beforehand, invoices without order reference can be processed for which the the following information shall be specified:

- Full name and address of the delivering and performing entrepreneur
- Full address of the invoice recipient - see ANNEX: Billing addresses, delivery addresses, support contact
- Name and address of the recipient of delivery and service - see ANNEX: Billing addresses, delivery addresses, support contact
- Amount and normal trade description of the items supplied or type and scope of service
- Day or period of delivery or other service
- Remuneration for the delivery or other service
- Tax amount payable in accordance with the remuneration and the tax rate applicable or reference to tax exemption
- Tax number or the value added tax identification number (USt-IdNr / VAT)
- Date of issue of the invoice
- Unique invoice number
- **Please specify in addition one of the two following references:**
  - **Email address of the requestor (e.g. max.mustermann@zeiss.com)**
  - **USER ID of the requestor (e.g. USER ID: ZOMUST)**

## 8) Terms of payment

ZEISS settles invoices according to the specifically agreed terms of payment which are part of the order. Should payment terms that deviate from the agreed payment terms be disclosed in an order, the known ZEISS contact persons in the procurement department will gladly assist you.

## 9) Questions concerning invoices and payment process

For questions concerning invoices and the payment process or in the event of problems the respective contact details and local response times are listed in the following ANNEX.
