

HEALTH DATA PLATFORM TERMS AND CONDITIONS

These *HEALTH DATA PLATFORM™ Terms and Conditions* (“**Terms and Conditions**”) are applicable to the *HEALTH DATA PLATFORM™* (herein, the “**Platform**”), and any Application(s) selected from the Schedules under **Exhibit A** and purchased pursuant to a purchase order, quote, subscription order or other purchasing document or exhibit hereto (“**Quote(s)**”) together with these Terms and Conditions, the “**Agreement**”). The Platform is a cloud-based platform used in conjunction with various software applications that support clinical workflow and treatment planning for various diseases, management of administrative processes, and includes all Updates related thereto (Platform and Application(s) together referred to herein as, the “**Solution**”), between Carl Zeiss Meditec USA, Inc. (“**Supplier**”) and the party(ies) listed on the applicable Quote(s) (“**Customer**”). More specifically, this Agreement governs access to the Platform and the use of content and workflow Applications via the Platform and shall apply to all users. For the avoidance of doubt, this Agreement is applicable to any services provided by Supplier pursuant to a Quote, including, without limitation, On-site Services and Remote Services. Supplier’s agreement to provide the Solution and any services is conditioned upon Customer’s assent to this Agreement and is limited to acceptance of this Agreement, and no specific condition or terms issued by the Customer which may appear on the purchase order or on any document communicated by the Customer, shall prevail over this Agreement. All such conditions and terms are objected to and rejected. Provision of the Solution or any services to Customer does not constitute acceptance of any of Customer’s terms and conditions and does not serve to modify or amend this Agreement. For the avoidance of doubt, the Customer’s general terms and conditions are expressly excluded. Except for the express obligations set forth in this Agreement, Supplier does not assume any obligations to Customer, and any statements made about the Solution and their respective functionality in communications with Customer are for informational purposes only and do not constitute obligations on Supplier’s part. No Supplier obligations under this Agreement shall be construed as a guaranteed condition or other warranty not expressly provided for herein.

1. License. During the Term of this Agreement, and provided that Customer complies with the restrictions set forth in Section 3 (“**Customer Restrictions**”) below, Supplier hereby grants to Customer a limited, royalty-free, non-exclusive, revocable, non-transferable, non-sublicensable license to use the Solution software in object code for Customer’s internal business purposes of optimizing and personalizing patient care for clinical practice and surgery (“**Purpose**”). Supplier authorizes any of Customer’s employees, consultants, and/or contractors to use the Solution for the performance of their duties relating to the Purpose provided that, such use shall be governed by Supplier’s procedures, including without limitation providing each user with a separate password and user name in order to utilize the Solution. The Solution is licensed to the Customer, and not sold. Customer shall not (and shall not permit any authorized user to) decompile, disassemble or otherwise reverse engineer the Solution or attempt to discover source code or underlying ideas or algorithms of the Solution. Supplier reserves all rights not expressly granted to Customer under these Terms and Conditions.

2. Customer Obligations. Customer shall maintain their infrastructure and devices pursuant to Supplier’s requirements and guidelines during the Term (as defined in Section 19, below). Specifically, Customer shall ensure the following conditions are met during the Term:

- 2.1 Customer’s EMR vendor must be supported by the Solution, provided, that the functionality of the Solution may change based on the supported EMR, and since some EMRs are integrated unidirectional only, not every functionality is available for the Solution,
- 2.2 Customer’s device(s) must be supported by the Solution as detailed in the applicable Quote(s) (“**Supported Devices**”), and such Supported Devices must each be attached to the Customer’s network; remotely accessible by Supplier; and maintain broadband internet access at each location where Customer accesses the Solution.
- 2.3 Supplier must be able to remotely install a Solution component on a computer attached to Customer’s network at any time. At a minimum, Customer shall have a connectivity software product installed within Customer’s network in order to enable connectivity between devices (e.g., as between Supplier’s and third party devices) and the Platform for data exchange.
- 2.4 Subject to the terms and conditions of this Agreement, Customer shall be permitted to upload and use its Customer Content on the Solution. “**Customer Content**” means and includes any and all content and information uploaded, created using the Solution or otherwise provided by Customer for use with the Platform and/or selected Applications that was not pre-existing on the Solution, Platform or provided by Supplier. Customer is solely responsible for the suitability, content, use and quality of Customer Content and the means by which Customer acquired such content. For example, Customer is solely responsible for: (i) making and maintaining independent backup copies of all Customer Content; and (ii) any document retention or archiving obligations imposed by applicable law or Customer’s company policy.
 - 2.4.1 Customer is obliged to provide all information and data truthfully and completely and to keep it up to date at all times (e.g., contact information). Supplier shall not be responsible for any Customer Content on the Solution or for any outcome or result being accurate, complete or up-to-date. It shall be the responsibility of the Customer to check whether the content on the Solution is accurate, complete or up-to-date in the Customer’s view and whether the content is suited for a particular area of application.
 - 2.4.2 All publications of Customer Content must be provided using the real name of the Customer or the name of his/her institution/affiliation. If the Customer Content contains links to Internet sites, the Customer must limit such links to home pages owned or operated by the Customer or to which the Customer is otherwise authorized to link, or that do not contain information or materials protected by copyright or other intellectual property rights, the use of which would require permission from third parties. The Customer may not edit, delete or otherwise modify any content of other Customers or of Supplier when using the Solution.
 - 2.4.3 Supplier is not involved in any transactions between Customers who are subscribers of the Solution.
 - 2.4.4 The Solution may contain links to other websites. Supplier is not responsible for the content of the platforms linked to the Solution, nor for their compliance with applicable law, including statutory data protection provisions. Supplier disclaims any express or implied warranty for the accuracy, legality, reliability or validity of the content of other linked platforms. Platforms to which the Solution links may contain information or materials protected by copyright or other intellectual property rights, the use of which may require a license or permission from third parties. Customers are solely responsible for obtaining any such required license or permission.
- 2.5 Customer will immediately notify Supplier: i) if Customer becomes aware of circumstances, and in particular incidents, that indicate: (a) the security and/or compliance standards under this Agreement may not be met, or (b) use of the Platform may pose a risk of personal injury or risk to the security and stability of Supplier’s, Customer’s, or other user / partner’s systems; (ii) of any action taken by any government agency or

court order that may interfere with Customer's use of Customer Content under this Agreement; and (iv) if Customer learns of any unauthorized access to Customer's account, the Platform or Solution.

3. Customer Restrictions. Customer acknowledges that the Solution constitutes and contains certain intellectual property rights and trade secrets of Supplier and its licensors, and, in order to protect such trade secrets and other interests that Supplier and its licensors may have in the Solution, Customer agrees not to disassemble, decompile or reverse engineer the Solution nor permit any third party to do so, except to the extent such restrictions are prohibited by applicable law. In addition, except as expressly authorized in this Agreement, Customer will not (a) copy or modify the Solution, in whole or in part, (b) lease, lend or rent the Solution, use the Solution to provide service bureau, time sharing, rental, application services provider, software-as-a-service, hosting or other computer services to third parties, or otherwise make the functionality of the Solution available to third parties, (c) scan, probe, or test the vulnerability of the Solution or any service connected to the Solution, nor breach the authentication or security measures on the Solution or any network connected to the Solution, (d) trace, seek to trace, reverse look-up any information on any other user of or visitor to the Solution, or any other customer of Supplier, including any Supplier account not owned by Customer, to its source, or exploit the Solution or any service or information made available or offered by or through the Solution, in any way where the purpose is to reveal any information, including but not limited to personal identification or information, other than your own information, as provided for by the Solution, (e) attempt to gain unauthorized access to any portion or feature of the Solution, or any other systems or networks connected to the Solution or to any server of Supplier, or to any of the services offered on or through the Solution, by hacking, password "mining" or any other illegitimate means, (f) use any "spider," "robot," "deep-link," "page-scrape," or other automatic device, program, methodology or algorithm, or any similar or equivalent manual process, to acquire, access, copy or monitor any portion of the Solution, or in any way reproduce or circumvent the navigational structure or presentation of the Solution, to obtain or attempt to obtain any materials, documents or information through any means not purposely made available through the Solution; (g) use any software, device, or routine to interfere or attempt to interfere with the proper working of the Solution or any transaction being conducted on the Solution, or with any other person's use of the Solution, (h) take any action, intentionally or unintentionally, that imposes an unreasonable or disproportionately large load on the infrastructure of the Solution or the systems or networks of Supplier, or any systems or networks connected to Supplier or the Solution, (i) use the Solution for any purpose that is unlawful or prohibited by this Agreement, or to solicit the performance of any illegal activity or other activity which infringes the rights of Supplier or others, (j) transmit or communicate any data that is unlawful, harmful, threatening, abusive, harassing, defamatory, false, misleading, libelous, vulgar, obscene, invasive of another's privacy, hateful or racially, ethnically or otherwise objectionable, (k) impersonate any person or entity or falsely state or otherwise misrepresent your affiliation with a person or entity, (l) forge headers or otherwise manipulate identifiers in order to disguise the origin of any data transmitted to other parties, (m) transmit, access or communicate any data that Customer does not have a right to transmit under any law or under contractual or fiduciary relationships (such as inside information, proprietary and confidential information learned or disclosed as part of employment relationships or under non-disclosure agreements); (n) transmit, access or communicate any data that infringes any patent, trademark, trade secret, copyright or other proprietary rights of any party, (o) transmit, introduce, or communicate any data that contains software viruses or any other computer code, files or programs designed to interrupt, destroy or limit the functionality of any computer software or hardware or any telecommunications equipment, including, without limitation, the Solution, (p) interfere with service to any user of the Solution, host or network, including, without limitation, via means of submitting a virus to the Solution, overloading, "flooding", "spamming", "mailbombing" or "crashing" or otherwise interfere with or disrupt or circumvent the Solution; (q) publish serial numbers, activation keys, "cracks", or any other information with the intent or aptitude for software piracy or unlicensed use of the Solution; (r) violate any applicable local, state, national or international law, including securities exchange and any regulations, requirements, procedures or policies in force from time to time relating to the Solution; (s) monitor traffic or make search requests in order to accumulate information about individual users or collect or store personal data about other users; or (t) modify, delete, or damage any information contained on the personal computer of any Solution user.

4. Registration. Upon registration, Customer agrees to provide current, accurate, and complete information required to register with the Solution and at other points as may be required in the course of using the Solution ("**Registration Data**"). Customer must have a valid email address to become a registered user of the Solution. Further, Customer agrees to maintain and update Customer's Registration Data as required to keep it current, accurate, and complete. Customer agrees that Supplier may store and use the Registration Data Customer provides for use in maintaining Customer's account. Supplier has the right to confirm or otherwise verify or check, in its sole discretion, the truth and accuracy of any registration information at any time. Verification of Customer's registration information, specifically, Customer's name, address and/or tax identification number, against a third party database may be considered to constitute a "credit check" under certain laws. Supplier is not making, as part of the registration process, and will not otherwise make, any type of inquiry to any third party regarding any individual's credit history and personal financial information without first obtaining such individual's express authorization to do so. Supplier may terminate Customer's rights to any part of or the entire Solution if any information Customer provides is false, incomplete or inaccurate.

5. User Account. As a registered user of the Solution, Customer will establish a user account ("**User Account**") along with user ID(s) and password(s) ("**Login Information**"), subject to the terms and conditions presented at time of registration. Customer will employ the security measures necessary to prevent unauthorized users from accessing the Solution and Customer's Login Information. Customer is solely responsible for the maintenance of Customer's Login Information and Customer's User Account. Customer accepts sole responsibility for and will be liable for all access to the Solution in connection with Customer's Login Information and User Account. Customer will inform all authorized persons who are given access by Customer to the Solution that such materials are confidential and contain trade secrets of Supplier licensed to Customer as such. Without the prior written consent and such third party entering into a written agreement with Supplier, Customer will not utilize the services of any third party to assist you in using the Solution. Customer will be responsible for all activities that occur under or in connection with Customer's User Account and Login Information. If Customer is an entity, only Customer's bona fide employees, duly authorized agents and representatives may use the Solution under Customer's User Account and this Agreement applies to all of Customer's employees, representatives, agents, and any other person or entity that accesses the Solution through Customer's User Account. Subject to the above, Customer warrants that no persons will have access to the Solution or any user manual or other documentation relating to the Solution without Supplier's prior written consent. Customer further represents that all permitted users who are technically capable of submitting statements and/or notifications through the User Account are acting on Customer's behalf and have the ability to bind Customer.

6. Delivery and Acceptance. Supplier will deliver the Solution to Customer in the manner and timeframe described on the Quote. Unless otherwise specified in the Quote, the Solution will be deemed accepted upon installation at Customer's cost. The Solution will be deployed remotely. Customer shall ensure all prerequisite Customer requirements in the Quote have been completed prior to installation. Customer's use of the Solution is subject to technical requirements, such as necessary hardware or operating systems. Supplier is not liable for the consequences insofar as they arise from Customer's failure to use the Solution in accordance with these technology requirements.

7. Optional Solution Use: "Share and Comment" Feature. As a component of the Solution, Customer has the option to share content with other users free of charge by uploading, transferring, sharing or otherwise publishing Customer's content on the Platform, including the technical possibility to comment on content of other users who may be Supplier customers or non-Supplier customers. Customer has the technical ability to revoke and delete its own comments at any time. For the avoidance of doubt, this shall in no event result in any liability on Supplier's part for the legal compliance, usability or functionality of Customer's shared or published content on or through the Solution.

Should Customer elect to use this feature (1) Customer understands and acknowledges that Supplier is under no obligation to provide or publish Customer's content on or through the Solution; (2) Customer is solely responsible (to Supplier, its Affiliates, and any third parties) for all publishing activities that occur under Customer's User Account; and (3) for purposes of sharing and publishing, Customer has the option of either making Customer Content available to all other users or making it available only to individual users selected by Customer; provided, however, that any user must have a current ZEISS ID. In

either case, by sharing and publishing Customer's content on the Solution, Customer (i) grants to the applicable other users a limited, personal, transferable, non-exclusive license to use such Customer Content in accordance with this Agreement, including, without limitation, the right to further share, comment on, and make available such Customer Content to other users; and (ii) warrant that Customer has (and will have for the entire period that Customer Content is published through the User Account) all necessary licenses, rights, consents, and permissions; and (3) Supplier reserves the right (but is not obligated) to refuse to post and to remove any Customer Content that violates this Agreement, applicable law or the rights of Supplier, other users or other third parties at any time (before, during and after posting of Customer's Content without prior notice and in Supplier's sole discretion).

Customer is solely responsible to Supplier to check and verify the identity and contact details (e.g. email address) of the users with whom the Customer Content is shared,

8. Services and Updates.

8.1. General. Supplier will provide hosting services to Customer during the Term of this Agreement on server resources under the control of Supplier. Unless expressly agreed otherwise, standard services are provided and enable Customer to use the Solution agreed and generally provided by Supplier. Supplier is entitled to update and further develop the Solution in terms of technology, features and functionalities. With the provision of a new version, Customer is no longer entitled to use earlier versions. If significant changes are made to the Solution that affect Customer's use, or if agreed Services are restricted, Supplier will, to the extent reasonable, notify Customer at least two (2) business days before the changes take effect (e.g., by notice via the Platform). This notice period will not apply if Supplier reasonably believes that changes are necessary to avoid: (i) compromising the security or functionality of the Solution; or (ii) adversely affecting Supplier, its Affiliates, customers or third parties.

- At the WAN output of the data center Supplier uses (demarcation point), Supplier offers Customer access to the Supplier services to be provided via the Internet.
- Customer is obligated to provide Supplier with any cooperation that is reasonable and appropriate for the proper performance of the Solution and related services. Customer acknowledges that the proper performance of the Solution and related services depends on the timely and proper fulfillment of Customer's cooperation obligations. In particular, Customer shall (i) provide Supplier with all data and information necessary to perform the agreed services in an appropriate format and in a timely manner, (ii) take reasonable steps to ensure that personnel involved in the receipt and use of the Supplier services on Customer's behalf are sufficiently qualified, and (iii) (if applicable) provide timely instructions, approvals or releases. If Customer fails to cooperate in accordance with this Agreement, Supplier will not be responsible for any consequences resulting from such failure. Specifically, the Platform and/or Solution Availability affected by such failure to cooperate will be suspended for a period equal to the duration of Customer's failure to cooperate plus a reasonable time to resume. ZEISS will continue to operate the server on a long-term basis. ZEISS also reserves the right to change the Platform and the access conditions and to shut down the Platform in whole or in part at any time for operational reasons. If changes occur, ZEISS will inform the users in good time.
- It is Customer's responsibility to ensure that their use of the services is in compliance with applicable law, and Supplier assumes no responsibility for this.

8.2. Availability. Supplier will use commercially reasonable efforts to provide the Solution to Customer with a Platform Availability of at least 95.1%. Supplier will use reasonable efforts to perform scheduled maintenance between 9 p.m. and 8 a.m. EST. These times are subject to change upon reasonable notice.

- **"Platform Availability"** means and includes the average percentage of time, calculated in minutes, that the Platform is available to Customer during a given calendar month, excluding Planned Downtime and Unplanned Downtime.
- **"Planned Downtime"** means and includes a period of time during which the Platform is unavailable to Customer due to testing, development and maintenance windows related to the Platform.

8.3. Remote Services and Updates. During the Term, Supplier shall provide the following services to Customer remotely (the **"Remote Services"**): install, monitor, access, troubleshoot problems, assist with user operations and upgrade Solution software. In addition, Supplier will provide the Customer with Solution updates made generally available to all of Supplier's customers, including any corrections, fixes, modifications, improvements to the Solution (collectively, **"Updates"**). For the avoidance of doubt, Supplier shall have no obligation to provide any Remote Services or Updates upon termination or expiration of this Agreement.

8.4. Exclusions to Remote Services. Supplier will have no obligation of any kind to provide Remote Services of any kind for problems in the operation or performance of the Solution to the extent caused by any of the following (each, a **"Customer-Generated Error"**): (a) non-Supplier software or hardware products or use of the Solution in conjunction therewith; (b) modifications to the Solution made by any party without Supplier's express written authorization; (c) Customer's use of the Solution other than as authorized in this Agreement or as provided in the documentation; or (d) Customer's use of other than the most current version of the Solution or any error corrections or updates thereto provided by Supplier. If Supplier determines that it is necessary to perform Remote Services for a problem in the operation or performance of the Solution that is caused by a Customer-Generated Error, then Supplier will notify Customer thereof as soon as Supplier is aware of such Customer-Generated Error and Supplier will have the right to invoice Customer at Supplier's then-current published time and materials rates for all such Maintenance Services performed by Supplier. Furthermore, Remote Services shall not include any integration with an EMR after installation.

8.5. On-Site Services. Supplier may provide Customer with on-site services for or related to the Solution (**"On-site Services"**) as may be described in one or more mutually agreed to Schedules or Quotes which shall contain items such as a description of the services, the services rate(s), and the services period. Customer shall reimburse Supplier for travel and per diem expenses incurred in connection with On-site Services that are reasonable, necessary and pre-approved by Customer in writing for Supplier.

8.6. Subcontractors. Supplier may enter into contractual arrangements with independent contractors or subcontractors (collectively referred to as **"Subcontractors"**) to perform or otherwise assist Supplier in providing the On-site Services or Remote Services, provided however, that Supplier will not be relieved of its obligations under this Agreement because of any act or failure to act by any such Subcontractor(s) and will be fully liable for all such acts and omissions of the Subcontractor(s).

9. Medical Treatment. The Solution is intended to support Customer's duly licensed medical personnel in their practice of medicine and their independent decisions regarding patient treatment plans. The Solution is not intended to provide medical advice or guidance. Customer's duly licensed medical personnel are solely responsible for making all diagnostic determinations, surgery plans, and all other treatment decisions for patients whose information is managed by the Solution.

10. Intellectual Property. Customer expressly acknowledges that, as between Supplier and Customer, Supplier owns all worldwide right, title and interest in and to the Solution, and any copies thereof, including all worldwide intellectual property rights therein. Customer will not delete or in any manner alter the copyright, trademark, and other proprietary rights notices appearing on the Solution as delivered to Customer. Supplier shall retain for Supplier all right, title and interest in any intellectual property created when performing any services or creating any other deliverables under this Agreement.

Customer hereby grants to Supplier (including Supplier's affiliates and subcontractors) a limited, personal, transferable, non-exclusive license to use, host, link, publish, transmit, display, sublicense and reproduce Customer's Content as necessary for the purpose of providing the Solution to Customer and/or other customers under this Agreement. Supplier may make copies of Customer Content in anonymous form, analyze and evaluate it, including for statistical

purposes and to improve and further develop the Solution. In addition, Customer grants Supplier (including Supplier Affiliates, subcontractors and business partners) a worldwide, perpetual, irrevocable, transferable, sublicensable and royalty-free right to use and incorporate into or otherwise use the Solution, or other products or services, any suggestions, recommendations, feature requests or other feedback in connection with the Solution provided by Customer or on Customer's behalf.

11. Third Party Technology. Any third-party technology provided, made available, linked to, or otherwise accessible through the Solution ("**Third Party Technology**") is provided solely as a convenience to Customer and is not under the control of Supplier. Supplier does not endorse, recommend, or otherwise make any representations or warranties with respect to any Third-Party Technology. Supplier does not have any responsibility or liability to Customer for any Third-Party Technology which Customer accesses and uses at their own risk. Further, Customer agrees to comply with any and all terms and conditions applicable to the use of Third Party Technology and otherwise ensure that Customer has obtained all rights, licenses, and clearances that may be necessary to use such Third Party Technology.

12. Third Party Portals. This Solution may contain links to other independent third-party websites and URLs (collectively, "**Linked Portals**"). These Linked Portals are provided solely as a convenience to Supplier's users. Such Linked Portals are not under the control of Supplier, and Supplier is not responsible for and does not endorse the content of such Linked Portals, including any information or materials contained on such Linked Portals. Supplier does not have any responsibility or liability for any information, data, communications or materials.

13. Payment and Terms.

13.1. Fees and Payment. Customer will pay Supplier the applicable fees specified in the applicable Quote. A Quote may contain one-time and recurring fees. Any recurring fees will be invoiced annually quarterly or monthly, unless otherwise specified in the Quote. The initial invoice will be sent in the first month following installation and activation of the Solution. All such fees and expenses will be due and payable within thirty (30) days after Customer's receipt of Supplier's invoice, unless otherwise specified in the Quote. All past due amounts will incur interest at a rate of one and a half percent (1.5%) per month or the maximum rate permitted by law, whichever is less.

13.2. Payment Terms. Customer will pay all amounts due under this Agreement in U.S. currency, unless otherwise specified in the applicable Quote. All fees payable under this Agreement are net amounts and are payable in full, without deduction for taxes or duties of any kind. Customer will be responsible for, and will promptly pay, all taxes and duties of any kind (including but not limited to sales, use and withholding taxes) associated with this Agreement or Customer's receipt or use of the Solution, Remote Services or On-Site Services, except for taxes based on Supplier's income. For Supplier to extend tax-exemption status to Customer, Customer must provide a tax-exemption certificate valid in the jurisdiction of the installation location prior to acceptance of the order.

14. Customer Representations & Warranties. Customer represents, warrants, and covenants to Supplier the following: (a) all information Customer provides to Supplier as part of the registration process or otherwise will be truthful, accurate and complete, irrespective of any independent verification or other determination made by Supplier; (b) Customer owns or controls the necessary rights and authority to grant the rights, and permissions made under this Agreement, and that the exercise of such rights, licenses and permissions by Supplier will not violate or otherwise infringe the rights of any third party; (c) Customer has the full authority to act on behalf of any and all owners of any right, title or interest in and to Customer's API(s) that Customer provides to Supplier; (d) this Agreement has been duly and validly authorized, accepted, agreed to, and delivered by Customer (or Customer's authorized representative) and constitutes Customer's legal, valid, and binding obligation, enforceable against Customer in accordance with these Terms and Conditions; and (e) the performance by Customer of this Agreement and Customer's use of the Solution does not and will not conflict with or violate (1) any law, rule, regulation, order, judgment, decree, agreement, instrument, or obligation applicable to Customer, or (2) if Customer is an entity, any provision of Customer's organizational or governing documents.

15. DISCLAIMER. SUPPLIER DISCLAIMS ALL WARRANTIES, EXPRESS OR IMPLIED, INCLUDING TITLE, NONINFRINGEMENT, AND IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, AND ANY WARRANTIES ARISING OUT OF COURSE OF DEALING, USAGE OR TRADE. NO ADVICE OR INFORMATION, WHETHER ORAL OR WRITTEN, OBTAINED FROM SUPPLIER OR ELSEWHERE WILL CREATE ANY WARRANTY NOT EXPRESSLY STATED IN THIS AGREEMENT. THE SOLUTION AND ANY THIRD-PARTY TECHNOLOGY ARE MADE AVAILABLE ON AN "AS IS" AND "AS AVAILABLE" BASIS. WITHOUT LIMITING THE GENERALITY OF THE FOREGOING, SUPPLIER, ITS LICENSORS, AND SUPPLIERS MAKE NO WARRANTY, REPRESENTATION, OR GUARANTY: (1) AS TO THE CONTENT, SEQUENCE, ACCURACY, TIMELINESS, RELEVANCE, OR COMPLETENESS OF ANY CONTENT; (2) AS TO ANY INFORMATION OFFERED OR PROVIDED WITHIN OR THROUGH THE SOLUTION; OR (3) THAT THE SOLUTION MAY BE RELIED UPON FOR ANY REASON, WILL BE UNINTERRUPTED OR ERROR FREE, OR THAT ANY DEFECTS CAN OR WILL BE CORRECTED. FURTHER, YOUR USE OF THE SOLUTION AND ANY THIRD-PARTY TECHNOLOGY IS AT YOUR OWN RISK. SUPPLIER DOES NOT WARRANT THAT THE SOLUTION OR THIRD-PARTY TECHNOLOGY WILL MEET YOUR SPECIFIC REQUIREMENTS. TO THE EXTENT THAT SUPPLIER MAY NOT DISCLAIM ANY WARRANTY AS A MATTER OF APPLICABLE LAW, THE SCOPE AND DURATION OF SUCH WARRANTY WILL BE THE MINIMUM PERMITTED UNDER SUCH LAW.

16. Indemnification.

16.1. Supplier Indemnification. Supplier will defend Customer and Customer's officers, directors, from any allegations, claims, actions, suits or loss arising out of or relating to any claims of infringement of a third party's intellectual property rights arising from Customer's use or possession of the Solution provided that Customer: (a) promptly notifies Supplier in writing of the claim, provided however that the failure to promptly notify Supplier shall not reduce or affect the obligations of Supplier with respect thereto, except to the extent that Supplier is prejudiced thereby; and (b) provides Supplier, at Supplier's expense, with all assistance, information and authority reasonably required for the defense and settlement of the claim. If Customer's use or possession of any part of the Solution is or is likely to be enjoined as an infringement of any third party intellectual property rights, Supplier shall, at Supplier's option: (i) procure for Customer the right to continue to use the Solution under the terms of this Agreement; or (ii) replace or modify the Solution so that it is non-infringing. Supplier shall not be required to indemnify and hold Customer harmless from any intellectual property right infringement claim that results from: (I) Solution and/or services based on Customer's specifications; (II) modifications made to any of the Solution and/or services without Supplier's prior written approval; (III) use of the Solution and/or services by Customer other than in accordance with the provisions of this Agreement; (IV) use of the Solution and/or services by Customer with other hardware, software or any combination therefore other than in accordance with the provisions of this Agreement or other than as recommended by Supplier; (V) infringement of any hardware or software not manufactured by Supplier or any of its affiliates; or (vi) use of the Solution and/or services by Customer or users who utilized third party links, software, websites for which Supplier has expressly disclaimed liability herein. In no event will ZEISS's total liability to Buyer with respect to any infringement exceed the amount of fees paid by Customer to Supplier during the Term. THE PROVISIONS OF THIS SECTION 16 SET FORTH SUPPLIER'S SOLE AND EXCLUSIVE OBLIGATIONS, AND CUSTOMER'S SOLE AND EXCLUSIVE REMEDIES, WITH RESPECT TO INFRINGEMENT OR MISAPPROPRIATION OF INTELLECTUAL PROPERTY RIGHTS OF ANY KIND.

16.2. Customer Indemnification. Customer agrees to indemnify, defend, and hold harmless Supplier and its directors, officers and employees against any and all losses, liabilities, judgments, penalties, awards and costs, including costs of investigation and legal fees and expenses asserted against Supplier by a third party (collectively, a "**Loss**") arising from or relating to (a) any claim for professional negligence against Customer or any of its practitioners regarding the practice of any of the healing arts (b) Customer's breach of any of Customer's representations, warranties, covenants, or other agreements made under this Agreement, (c) any claims by or disputes related to Customer's use of the Solution between Customer and any third party, and any Data Customer provides to the Solution or otherwise transmits using the Solution. If Supplier receives a claim with respect to a potential Loss for which Supplier

will or may seek indemnification (a “**Claim**”), Supplier shall provide Customer with notice of the existence of such Claim and such information, documents and cooperation as are reasonably necessary to permit Customer to establish a defense to such Claim. Customer shall have the option to assume the defense of a Claim and to employ attorneys selected by it to defend it, in which case the costs and expenses of any such defense shall be the responsibility of Customer.

17. Limitation of Liability. NEITHER PARTY SHALL HAVE ANY LIABILITY IN REGARD TO CONSEQUENTIAL, EXEMPLARY, SPECIAL, INCIDENTAL OR PUNITIVE DAMAGES, EVEN IF IT HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. IN NO EVENT SHALL EITHER PARTY’S TOTAL LIABILITY IN CONNECTION WITH OR UNDER THIS AGREEMENT (WHETHER UNDER THE THEORIES OF BREACH OF CONTRACT, TORT, NEGLIGENCE, STRICT LIABILITY, OR ANY OTHER THEORY OF LAW) EXCEED THE FEES PAID BY CUSTOMER UNDER THIS AGREEMENT. The parties expressly acknowledge and agree that Supplier has set its prices and entered into this Agreement in reliance upon the limitations of liability specified herein, which allocate the risk between Customer and Supplier and form a basis of the bargain between the parties.

18. Confidential Information. Each party (“**Receiving Party**”) acknowledges that, in the course of the performance of this Agreement, it may learn certain confidential and proprietary information about the other party’s (“**Disclosing Party**”) business and operations that has been identified as “confidential” or proprietary or that the receiving Party knows or has reason to know to be confidential, including, without limitation, patient data, information or personal health information (“**Confidential Information**”). Receiving Party agrees that it will keep all such information strictly confidential, and that it will not use it for any other purpose other than to exercise its rights and responsibilities under this Agreement, that it will not resell, transfer, or otherwise disclose such information to any third party without the Disclosing Party’s specific, prior written consent. Receiving Party agrees that Disclosing Party is and shall remain the exclusive owner of Confidential Information disclosed hereunder and all patents, copyrights, trade secrets, trademarks and other intellectual property rights therein. Receiving Party shall, upon the request of Disclosing Party, return to Disclosing Party all drawings, documents and other tangible manifestations of Confidential Information received by Receiving Party pursuant to this Agreement (and all copies and reproductions thereof).
