

## Humphrey Field Analyzer from ZEISS

Compendium of peer-reviewed, published clinical articles

// INNOVATION  
MADE BY ZEISS

## Compendium of peer-reviewed, published clinical articles

### Methodology

This compendium is intended as an introduction to the breadth of research on or utilizing the Humphrey® Field Analyzer (HFA™). Since its first model was produced nearly 30 years ago, the Humphrey perimeter has been a part of research supporting hundreds of clinical articles, studies and trials.

With the goal of being as objective and inclusive as possible, the selection methodology used in developing this compendium was as follows: a search was conducted in Thomson-Reuters 'Web of Knowledge' databases for articles containing 'Humphrey Field Analyzer' or 'Humphrey Visual Field' or 'Statpac' in the title, keywords, or abstract, published between 1990 and 2013. In total, 1220 articles were identified. From these, articles were chosen based on number of citations and on current interest.

For a full bibliography on the HFA, as well as access to all articles and papers, visit [www.pubmed.com](http://www.pubmed.com).

ZEISS would like to thank Paul H. Artes, PhD, of the Open Perimetry Initiative and Dalhousie University for his distinguished work on this compendium.

# TABLE OF CONTENTS

|   |           |
|---|-----------|
| <b>Analysis</b> .....                                   | <b>4</b>  |
| Glaucoma Hemifield Test (GHT)                           |           |
| Guided Progression Analysis™ (GPA™)                     |           |
| STATPAC™  |           |
| Total and Pattern Deviation Analysis & Probability Maps |           |
| Visual Field Index™ (VFI™)                              |           |
| Other   |           |
| <b>Disability &amp; Quality of Life (QOL)</b> .....     | <b>6</b>  |
| <b>Glaucoma</b> .....                                   | <b>8</b>  |
| <b>Neurology</b> .....                                  | <b>12</b> |
| <b>Perimetric Testing and Strategies</b> .....          | <b>12</b> |
| Swedish Interactive Thresholding Algorithm (SITA™)      |           |
| SITA Fast™  |           |
| SITA-SWAP™  |           |
| Other   |           |
| <b>Retina</b> .....                                     | <b>18</b> |
| <b>Structure &amp; Function</b> .....                   | <b>20</b> |
| <b>Studies and Epidemiological Surveys</b> .....        | <b>23</b> |
| Andhra Pradesh Eye Disease Study                        |           |
| Baltimore Eye Survey                                    |           |
| Barbados Eye Study                                      |           |
| Leber Hereditary Optic Neuropathy                       |           |
| Melbourne Visual Impairment Project                     |           |
| Singapore Malay Eye Study                               |           |
| Tajimi Study  |           |
| Other   |           |
| <b>Trials</b> .....                                     | <b>24</b> |
| Advanced Glaucoma Intervention Study (AGIS)             |           |
| Collaborative Initial Glaucoma Treatment Study (CIGTS)  |           |
| Early Manifest Glaucoma Trial (EMGT)                    |           |
| European Glaucoma Prevention Study (EGPS)               |           |
| Los Angeles Latino Eye Study (LALES)                    |           |
| Low-Pressure Glaucoma Treatment Study (LoGTS)           |           |
| Ocular Hypertension Treatment Study (OHTS)              |           |
| Optic Neuritis Treatment Trial (ONTT)                   |           |
