ZEISS Surgery Optimizer
ZEISS VISULAS yag

Assess & educate

ZEISS EYEGUIDE: A mobile application for patients that helps healthcare providers to increase patient satisfaction with little effort.

ZEISS IOLMaster 700: Featuring Total Keratometry (TK), this SWEPT Source OCT optical biometer is made for cataract surgeons that require superior measurements to get fewer refractive surprises.

ZEISS ATLAS 500: The corneal topographer is a state-of-the-art solution for the anterior eye segment.

Plan

ZEISS Digital Ordering Platform: Order surgical products, manage your IOL inventory, bill and replace IOLs, and track deliveries – quickly, easily, and conveniently.

ZEISS VERACITY Surgery Planner: Integrates electronic health record data and diagnostic pre-op measurements to enable a seamless, efficient surgical planning workflow solution.

Treat

ZEISS CT LUCIA 621P: New generation of aspheric monofocal C-loop IOL.

ZEISS QUATERA 700: A whole new experience in phaco with the ZEISS patented QUATTRO Pump for chamber stability independent of IOP and flow.

ZEISS ARTEVO 800: Surgical microscopes from ZEISS for excellence in optics, illumination and ergonomics. ZEISS CALLISTO eye markerless technology available.

Check

ZEISS SL 800: Enabling convenient capturing of high-quality images and videos for documentation, patient education, or publishing.

ZEISS Surgery Optimizer: A cloud-based application revolutionizing the way you use surgical videos.

ZEISS VISULAS yag: A modern and compact laser workstation for safe and effective photodisruption.
