

ZEISS OPTIKIT

Truly customizable surgical packs

Prepare for cataract surgery with OPTIKIT® from ZEISS to save time in surgical preparation and optimize your workflow.

Consumables and ZEISS products in one sterile pack

From high-quality standard components to ZEISS products* and phaco accessories, every item you choose is placed in the same sterile pack for added convenience and a more efficient surgical preparation.

Sequential packing according to your workflow

Define the order in which your selected components are placed in the ZEISS OPTIKIT, to add efficiency in your surgical preparation.

Quick and easy setup via ZEISS digital configurator

Conveniently create your customized surgical pack with your ZEISS representative via the ZEISS digital configurator. Together, choose the most suitable product combination from the extensive ZEISS portfolio.

Take full control creating a customized surgical pack that fits your needs.

Choose **ZEISS OPTIKIT customized** to receive standard components, such as knives, cannulas, drapes swabs, gowns, gloves and more. With **ZEISS OPTIKIT customized+** you can add ZEISS products and phaco accessories for QUATERA® 700 and miLOOP® from ZEISS to the same sterile pack.

*ZEISS miLOOP is currently packed separately, outside the sterile ZEISS OPTIKIT packaging.
