

Selecting the right ZEISS IOL power for your patients. ZEISS Z CALC

ZEISS Z CALC

The online IOL calculator designed for ZEISS IOLs

Seeing beyond

ZEISS Z CALC

The online IOL calculator designed for ZEISS IOLs

Simplifying your ZEISS IOL power selection:

Free, browser-based and **userfriendly** interface – **simultaneously** calculating both eyes, allowing for easy comparison.

Calculating **toric** and **non-toric** ZEISS IOLs, **normal**, **short** and **long** eyes as well as **post-laser vision correction** eyes.

Using the patented **ZEISS IOL calculation algorithm** predicting the effective lens position and **incorporating the design** for each ZEISS IOL.

Supporting your challenging cases by enabling adjustments providing an optional expanded mode.

Optimizing your results by integrating TK® values of the ZEISS IOLMaster 700 to replace assumptions with measurements.

Streamlining your workflow by allowing you to directly order the selected ZEISS IOL.

Trusted in **clinical use since 2009** with currently **over 300.000** ZEISS IOL calculations performed annually.

*"Both, the **ZEISS Z CALC** and **BARRETT Universal II** used with **IOLMaster TK** yield very **accurate IOL power calculations**, and can be used interchangeably if required."*

Dr. Amir Hamid,
M.D., Optegra Eye Hospital London, UK

Our expert team at the
ZEISS IOL Power Calculation Service
is committed to helping you accurately calculate ZEISS IOLs even for particularly challenging cases.
