

All-inclusive access to image processing and data analysis

Institutional Licenses

Your Subscription-Based Entry to the ZEISS Software Ecosystem

zeiss.com/microscopy

Seeing beyond

Institutional Licenses

Your Subscription-Based Entry to the ZEISS Software Ecosystem

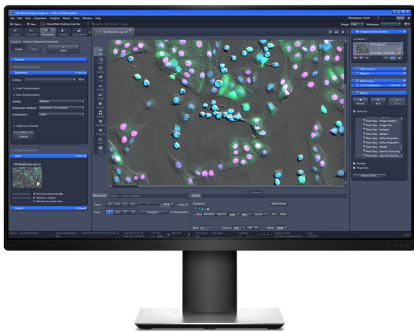

Streamline your microscopy image analysis with subscription-based Institutional Licenses for ZEN desk, arivis Pro, and arivis Cloud. Say goodbye to managing individual workstation licenses and enjoy significant cost savings. Floating licenses offer flexible workspace allocation, ensuring optimal resource use. All features are always available to all users, whether in the lab, on a central processing server, or remotely. Easily adjust software packages and seat counts on a yearly basis as your facility's needs evolve.

LAB	DEPARTMENT	INSTITUTE	CAMPUS
3 Seats	5 Seats	10 Seats	25 Seats
Available for ZEN desk, arivis Pro, and arivis Cloud			Available for ZEN desk

Depending on your institution's requirements, you can choose how many concurrent users (seats) you want to license per software package.

ZEISS ZEN desk

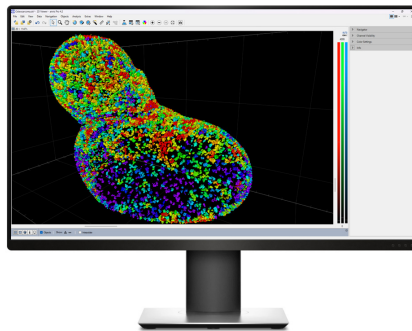

Process and Analyze Your Microscopy Data with Highest Efficiency

ZEN is the universal user interface you will see on every ZEISS imaging system. With ZEN desk you can separate processing and analysis tasks from image acquisition. Process your images and analyze them via Machine Learning-based tools. Use the Connect workspace to review, edit, and visualize datasets across modalities and scales. Store your data securely and make them accessible to all users.

ZEISS arivis Pro

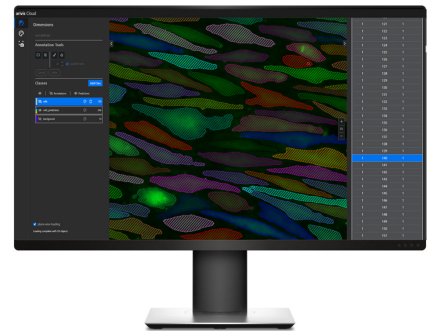

Maximize Your Image Potential with Advanced Analysis and Visualization

This comprehensive software solution, powered by AI, allows you to work with pre-trained models, custom-trained models from arivis Cloud, or onboard new technologies through Python scripting. Its range of tools supports analysis across 2D, 3D, and 4D datasets. With real-time big data handling and immersive VR analysis, arivis Pro is your solution for demanding analysis tasks.

ZEISS arivis Cloud

Unlock the Full Potential of Cloud-Based Model Training with Artificial Intelligence

ZEISS arivis Cloud makes training AI models for image analysis accessible to researchers. The platform provides an intuitive interface for novice users and experts, covering all steps of training a Deep Learning model for reliable, reproducible results. The models can then be used for image segmentation directly in the cloud or integrated into ZEISS software ecosystem for further analysis.

Your All-Inclusive Licensing Options

Subscribe to the Full Potential of Advanced Image Analysis

The annual subscription for ZEISS ZEN desk includes all tool-kits and features for post-acquisition processing and analysis.

Included ZEN Functions:

- 3rd Party import
- arivis cloud advanced
- Basic 3D viewing
- Colocalization
- Connect basic
- Data Storage Client
- Direct Processing
- Extended focus processing
- Manual EDF
- Measurement
- Panorama
- Spectral unmixing

Included ZEN Toolkits:

- ZEN Toolkit 2D
- ZEN Toolkit 3D
- ZEN Toolkit AI
- ZEN Toolkit Bio Apps
- ZEN Toolkit Connect
- ZEN Toolkit Developer
- ZEN Toolkit Deconvolution
- ZEN Toolkit Molecular Quantification

Included ZEN Modules:

- ZEN Module Airyscan
- ZEN Module Airyscan joint DCV
- ZEN Module Counting+ Basic FCS
- ZEN Module Counting Add-on FCS+FCCS
- ZEN Module Dynamics Profiler Basic
- ZEN Module Dynamics Profiler Advanced
- ZEN Module EM Processing
- ZEN Module FCS+FCCS Add-on Extended
- ZEN Module FCS+FCCS Add-on PCH
- ZEN Module Lattice SIM
- ZEN Module Lattice Lightsheet 7 Processing
- ZEN Module LSM Plus
- ZEN Module Lightsheet 7 Processing
- ZEN Module SMLM

arivis Pro

The annual subscription for ZEISS arivis Pro includes all arivis Pro modules for advanced analysis of large 3D datasets:

- arivis Pro for 3D Visualization and Data Analysis –ACA
- arivis Pro Module Tracking and Lineage – ACA
- arivis Pro Module Neuron Tracing – ACA
- arivis Pro Module Batch Analysis – ACA
- arivis Pro Module Exchange Objects – ACA
- arivis Pro Module Volume Fusion - ACA
- arivis Pro Modul DL Trainer – ACA
- arivis SIS Converter Pro – ACA

arivis Cloud

The annual subscription for ZEISS arivis Cloud makes AI for image analysis accessible with no coding and includes:

- Access to Deep Learning Toolset
- Access to pre-built applications
- 1 TB storage
- Up to 7000 min of computing time per month (incl. GPU)
- On-going priority expert support
- Continuous and included access to newest features and improvements
- Access to training materials

Institutional Licenses

Frequently Asked Questions

What is the difference between ZEISS Institutional Licenses and conventional licenses?

Institutional Licenses are multi-seat, floating, subscription-based licenses of ZEN desk, arivis Pro, or arivis Cloud. All available toolkits and modules are included in the offering.

What is a subscription-based license?

A subscription-based license is a time-limited entitlement to use the software and to always obtain the latest updates. It requires recurrent (e.g. annual) payments.

What is a floating license?

A floating license is a license that can be flexibly employed on several devices within an IT infrastructure. License activation and usage is monitored with a License Manager Tool.

Can I float single toolkits?

No. With Institutional Licenses, the toolkits are always bound to the underlying software platform.

How do I monitor the usage of Institutional Licenses?

Administrators can monitor the distribution and usage of ZEN desk and arivis Pro floating licenses via a License Manager Tool.

Will instances be updated automatically with the release of new ZEN and arivis versions?

Subscription to institutional licenses is time-based and not tied to software versions. You decide which installations you want to update and when. Version updates will be available for download, installation and usage from the first day of their release. The newest ZEN versions can be installed via the ZEISS Portal. For arivis Pro, updates can be initiated directly via the software user interface.

Is Data Storage included?

ZEN Data Storage is not included in the Institutional License packages but the Data Storage Client, which is included in every floating license of ZEN desk, can be used to establish a connection to an existing ZEN Data Storage server.

What happens if my license runs out?

As soon as an institutional license expires, there are several options: The license may be extended for one or more years. Alternatively, the user may fall back to a (previously or newly obtained) perpetual license. For ZEN desk, the user may also access basic functionality with ZEN lite, which is free of charge.
