Seeing **beyond**

Seamless **support** and enhanced **performance**

ZEISS Lifetime Extension

Upgrade your ZEISS electron microscopy systems with the ZEISS Lifetime Extension to ensure extended guaranteed system support, seamless software transition, and enhanced system capabilities.
Designed to keep your research uninterrupted and at the cutting edge with advanced features to maximize the potential of your microscope.

zeiss.com/lte-upgrade

Key benefits

Extend your system support
Ensure your system remains fully supported with extended guaranteed system support, providing access to ZEISS Protect Service Agreements for years to come.

Upgrade to ZEISS ZEN core EM
Transition to the advanced ZEN core EM software platform, designed specifically for electron microscopy users. Built on the robust ZEN core platform, it offers a modern foundation with integrated toolkits for imaging and analysis, enhanced automation, and unified control for efficient research workflows.

Ready for future innovations
By upgrading now, your system gains access to future breakthroughs like advanced sample preparation with TEM Lamella Prep, cutting-edge detectors for complex research needs, and automated imaging to streamline workflows.

Main applications

Future-proof your research
Keep your lab ahead of technological obsolescence with a fully supported, future-ready system, minimizing downtime and maximizing research productivity.

Advanced imaging and analysis
Unlock the full potential of ZEN core for EM's features, delivering improved precision, stability, better user experience, and new possibilities for imaging and data analysis.

Inegrated workflows
Optimize your operations with seamless hardware and software integration, supporting a wide range of advanced applications.

Compatible ZEISS systems

The Lifetime Extension upgrade will be offered for eligible systems within the following electron microscope (EM) series:

- ZEISS EVO
- ZEISS GeminiSEM
- ZEISS Crossbeam
- ZEISS Sigma
- ZEISS Merlin

Upgrade your microscope

Invest in the Lifetime Extension to preserve your system's performance and reliability. With guaranteed support, cutting-edge software capabilities, and hardware upgrade paths, this upgrade is the ultimate solution for keeping your electron microscopy systems at the forefront of research.
